

HANS VISSER

POSITION: Senior Project Manager

COMPANY: NEA Transport research and training

LABEL RESPONSIBILITY: Project Coordinator LABEL

Hans is a senior project Manager at NEA, Transport research and training. He has a background in econometrics and an extensive experience in transport research projects.

NEA Transport research and training is an independent international institute, working in the fields of transport, traffic, infrastructure and logistics. NEA covers a broad field encompassing all the economic and social aspects of both passenger and freight transport, for all modes of transport and the corresponding infrastructure.

Hans is amongst others responsible for research projects of NEA in the field inland waterways and road transport. He did the overall project management in a number of EC projects in the last decade. Currently, he is the project coordinator of the LABEL project.

Hans will be presenting the following at the conference:

Towards a truck parking certification standard and methodology

The presentation consists of two parts. The first part will be done by Hans and the second part by Silvia Bader. Hans' presentation discusses the objectives, background and general contents of the LABEL project. Some of questions that he will try to answer are:

- What are the characteristics of crime / criminality at or around truck parking areas?
- What are the merits of truck parking certification?
- Specifically, what could the LABEL project contribute to increasing the level of security and quality of truck parking areas?
- How are we going to ensure that the results are realised?
